# ***Hypertension***

An Official Journal of the American Heart Association

---

## ***Hypertension***

(ISSN 0194-911X) Published monthly at the Scientific Publishing Office, American Heart Association, 7320 Greenville Avenue, Dallas, TX 75231-4599.

*Hypertension* (Volume 16, 1990) is not related to any other publication in the field of hypertension medicine except for *Recurring Bibliography of Hypertension*, also published by the American Heart Association.

## **Subscription Rates**

Annual subscriptions accepted at any time. Subscription rates for Japan are available through an exclusive agent. **All orders for Japan** must be sent to Nankodo Co., Ltd., 42-6 Hongo 3-chome, Bunkyo-ku, Tokyo 113, Japan.

Individuals may subscribe to *Hypertension* for their personal use at the following rates: \$88 in the United States; \$124 for all other countries except Japan. Interns, residents, and medical students are eligible for a reduced rate if payment is accompanied by a letter from the department head verifying post held and completion date. Special reduced rates are \$44 in the United States, \$62 in Canada and Mexico. Contact AHA for subscription rates for libraries, reading rooms, and other multiple-use institutions. Prepayment is required. Make checks, drafts, post office or express money orders payable to the American Heart Association in US dollars drawn on a US bank with *Hypertension* on the face of the check. We accept VISA and MasterCard. Please include account number, expiration date, and name as it appears on the card. Issues will be mailed after payment is received. Prices are subject to change without notice. Single copy rates are available on request.

**This publication is printed on acid-free paper.**

# Hypertension

*Hypertension* is a forum for the presentation of scientific investigation of the highest quality in the broad field of cardiovascular regulation as it may affect high blood pressure research. The editors are interested in receiving original articles that deal with either basic or clinical research in the fields of biochemistry, cellular and molecular biology, immunology, physiology, pharmacology, and epidemiology. In addition, an important part of the journal is reserved for articles on clinical investigation that yield insight into the mechanisms of blood pressure regulation.

## Editor-in-Chief

Allyn L. Mark

## Associate Editors

Gerald F. DiBona
