Volume 49 Number 3 March 2007

Brief Reviews

- Less Atherosclerosis and Lower Blood Pressure for a Meaningful Life Perspective With More Brain**
Jan A. Staessen, Tom Richart, Willem H. Birkenhäger 389
- Hypertensive Cardiac Remodeling in Males and Females: From the Bench to the Bedside**
Christian F. Deschepper, Bastien Llamas 401
- Cardiovascular Effects of the Cyclooxygenase Inhibitors**
William B. White 408
- Molecular Biology of the Natriuretic Peptide System: Implications for Physiology and Hypertension**
David G. Gardner, Songcang Chen, Denis J. Glenn, Chris L. Grigsby 419

Editorial Commentaries

- Cardiac Hypertrophy and the Wnt/Frizzled Pathway**
Oscar H. Cingolani 427
- Regulation of Endothelial Nitric Oxide Synthase by Thrombin**
Rhian M. Touyz 429

Original Articles

Epidemiology—Biomarkers and Hypertension

- Multiple Biomarkers and the Risk of Incident Hypertension**
Thomas J. Wang, Philimon Gona, Martin G. Larson, Daniel Levy, Emelia J. Benjamin, Geoffrey H. Tofler, Paul F. Jacques, James B. Meigs, Nader Rifai, Jacob Selhub, Sander J. Robins, Christopher Newton-Cheh, Ramachandran S. Vasani 432

Hypertension® (ISSN 0194-911X), a peer reviewed journal, is a program of the American Heart Association and is published monthly by Lippincott Williams & Wilkins, 16522 Hunters Green Parkway, Hagerstown, MD, 21740-2116. Business offices are located at 530 Walnut Street, Philadelphia, PA, 19106-3621. Periodical postage paid at Hagerstown, MD, and at additional mailing offices. **Postmaster:** Send address changes to *Hypertension*, P.O. Box 1550, Hagerstown, MD 21740.

Annual subscription rates: *United States* - \$321 Individual, \$522 Institution, \$150 In-training. *Rest of World* - \$421 Individual, \$602 Institution, \$209 In-training. Single copy rate \$52. Subscriptions outside the United States must be prepaid. GST tax of 7% will be added to the subscription price of all orders shipped to Canada. (Lippincott Williams & Wilkins' GST Identification #895524239. Publications Mail Agreement #40052291).

Please indicate in-training status and name of institution. Institutional rates apply to libraries, hospitals, corporations, and partnerships of three or more individuals. Prices subject to change without notice. Subscriptions will begin with currently available issue unless otherwise requested. Copies will be replaced without charge if the publisher receives a request within 90 days of the mailing date.

Individual and in-training subscription rates include print and access to the online version. Institutional rates are for print only; online subscriptions are available via Ovid. Please contact the Ovid Regional Sales Office near you for more information on institutional online access. Visit www.lww.com/resources/librarians/ for contact information.

Genetics

- High-Resolution Mapping for Essential Hypertension Using Microsatellite Markers**
Keisuke Yatsu, Nobuhisa Mizuki, Nobuhito Hirawa, Akira Oka, Norihiko Itoh, Takahiro Yamane, Momoko Ogawa, Tadashi Shiwa, Yasuharu Tabara, Shigeaki Ohno, Masayoshi Soma, Akira Hata, Kazuwa Nakao, Hirotugu Ueshima, Toshio Ogihara, Hitonobu Tomoike, Tetsuro Miki, Akinori Kimura, Shuhei Mano, Jerzy K. James M. Luther, Nancy J. Brown ★e19

On the cover: Schematic representation of the effect of activation of the Wnt/Frizzled (Fz) pathway on the expression of hypertrophy-associated genes. The effects of inactive (left part) and activated (right part) Wnt/Fz signaling are depicted. (See page 479.)
