Hypertension
An Official Journal of the American Heart Association

Hypertension
(ISSN 0194-911X) Published monthly by the American Heart Association, 7320 Greenville Avenue, Dallas, TX 75231-4599.

Subscription Rates
For rates in Japan, contact Nankodo Co., Ltd., 42-6 Hongo 3-chome, Bunkyo-ku, Tokyo 113, Japan.

In the United States, individuals may subscribe to Hypertension for their personal use at the following annual rates: $76 for members of an American Heart Association scientific council; $96 for nonmembers. Outside the United States, add $34 for postage.

Medical professionals and scientists in training may subscribe for $38 in the United States and $55 outside the United States if payment is accompanied by a letter from the department chairman verifying post held and completion date.

Prepayment is required. Make check, draft, or money order payable to the American Heart Association in US dollars drawn on a US bank, with Hypertension on the face of the check. To charge on Visa or MasterCard, include account number, expiration date, and name as it appears on card.

Contact AHA for single copy rates and subscription rates for libraries, reading rooms, and other multiple-use institutions.

Pharmaceutical Media, Inc., 440 Park Avenue South, 14th Floor, New York, NY 10016. Telephone: (212) 685-5010. Fax: (212) 685-6126. Advertising copy must be approved by a special committee of the American Heart Association. Advertising forms close 45 days before the first day of publication month. Advertising rates and page sizes are available on request.

Instructions to Contributors
Information about manuscripts for Hypertension, including format, submission, review, and editing, appears in the first number of each volume (January and July). The author bears the cost of color in illustrations, as well as the cost of any reprints. Copyright 1991, The American Heart Association, Inc.

This publication is printed on acid-free paper.
Hypertension

Hypertension is a forum for the presentation of scientific investigation of the highest quality in the broad field of cardiovascular regulation as it may affect high blood pressure research. The editors are interested in receiving original articles that deal with either basic or clinical research in the fields of biochemistry, cellular and molecular biology, immunology, physiology, pharmacology, and epidemiology. In addition, an important part of the journal is reserved for articles on clinical investigation that yield insight into the mechanisms of blood pressure regulation.

Editor-in-Chief
