Supplement to
Hypertension

The Kidney, Obesity, and Essential Hypertension Symposium
Jackson, Miss., March 15-16, 1991

Introduction to the Kidney, Obesity, and Essential Hypertension Symposium
John E. Hall ............................................................... I-1

The Kidney and Blood Pressure Regulation

Kidneys and Fluids in Pressure Regulation: Small Volume but Large Pressure Changes
Arthur C. Guyton ....................................................... I-2

Pressure Natriuresis: Role of Renal Interstitial Hydrostatic Pressure
Joey P. Granger ........................................................ I-9

Hypertensinogenic Mechanisms Mediated by Renal Actions of Renin-Angiotensin System
Kenneth D. Mitchell, Branko Braam, and L. Gabriel Navar ....................... I-18

Sympathetic Neural Control of the Kidney in Hypertension
Gerald F. DiBona ....................................................... I-28

The Immune System and Hypertension
David J. Dzielak ....................................................... I-36

Obesity, Insulin, and Essential Hypertension

Obesity-Associated Hypertension: Hyperinsulinemia and Renal Mechanisms
John E. Hall, Michael W. Brands, Drew A. Hildebrandt, and H. Leland Mizelle ...................... I-45

Cardiovascular Regulation in Obesity-Induced Hypertension
Albert P. Rocchini .................................................... I-56

Hyperinsulinemia: Possible Role in Obesity-Induced Hypertension
Lewis Landsberg ..................................................... I-61

Obesity, the Sympathetic Nervous System, and Essential Hypertension
Michael L. Tuck ...................................................... I-67

Effects of Insulin on Renal Sodium Excretion
Akshey K. Gupta, Roderick V. Clark, and Kent A. Kirchner ......................... I-78

Hypertension During Chronic Hyperinsulinemia in Rats Is Not Salt-Sensitive
Michael W. Brands, Drew A. Hildebrandt, H. Leland Mizelle, and John E. Hall .................. I-83

Obese Zucker Rats Are Normotensive on Normal and Increased Sodium Intake

Blunted Natriuretic Response to an Acute Sodium Load in Obese Hypertensive Dogs
David B. West, Kurt E. Wehberg, Karen Kieswetter, and Joey P. Granger .................... I-96
Hyperamylnemia, Hyperinsulinemia, and Insulin Resistance in Genetically Obese LA/N-np Rats
Huei-Jen Su Huang, Andrew A. Young, Joy E. Koda, Orien L. Tulp, M. Jacqueline Johnson,
and Garth J.S. Cooper .......................................................... I-101

The Zucker Rat Model of Obesity, Insulin Resistance, Hyperlipidemia, and Renal Injury
Bertram L. Kasiske, Michael P. O'Donnell, and William F. Keane ................................. I-110

Current Concepts of Treatment of the Essential Hypertensive Patient

Effects of Antihypertensive Therapy on Insulin Resistance
Norman M. Kaplan ............................................................... I-116

Obesity Hypertension: Converting Enzyme Inhibitors and Calcium Antagonists
Edward D. Frohlich ............................................................. I-119

Antihypertensive Therapy and Cardiovascular Risk: Are All Antihypertensives Equal?
Thomas D. Giles ................................................................. I-124

Abstracts of Poster Presentations From the Kidney, Obesity, and Essential Hypertension Symposium ................................................ I-130
