Potential of Gene Therapy Strategy for the Treatment of Hypertension, 6

Genetics
Association of the Ghrelin Receptor Gene Region With Left Ventricular Hypertrophy in the General Population: Results of the MONICA/KORA Augsburg Echocardiographic Substudy, 920
Association Study With 33 Single-Nucleotide Polymorphisms in 11 Candidate Genes for Hypertension in Chinese, 1147
Chromosome 2p Shows Significant Linkage to Antihypertensive Response in the British Genetics of Hypertension Study, 603
Emergence of Novel Genetic Effects on Blood Pressure and Hemodynamics in Adolescence: The Georgia Cardiovascular Twin Study, 948
A Genetic Locus Accentuates the Effect of Volume Overload on Adverse Left Ventricular Remodeling in Male and Female Rats, 128
Genome-Wide Linkage Study of Retinal Vessel Diameters in the Beaver Dam Eye Study, 797
Novel Integrative Approaches to the Identification of Candidate Genes in Hypertension, 1
Sodium Bicarbonate Cotransporter Polymorphisms Are Associated With Baseline and 10-Year Follow-Up Blood Pressures, 532

Glomerular filtration rate
Rapid Nongenomic Effects of Aldosterone on the Renal Vasculature in Humans, 650

Glomerulosclerosis
Glucagon Receptor-Mediated Extracellular Signal-Regulated Kinase 1/2 Phosphorylation in Rat Mesangial Cells: Role of Protein Kinase A and Phospholipase C, 580
Hyperhomocysteinemia Associated With Decreased Renal Transsulfuration Activity in Dahl S Rats, 1094
Long-Term Administration of Rho-Kinase Inhibitor Ameliorates Renal Damage in Malignant Hypertensive Rats, 1075
Podocyte Injury Underlies the Glomerulopathy of Dahl Salt-Hypertensive Rats and Is Reversed by Aldosterone Blocker, 1084

Glucocorticoids
Mineralocorticoid Receptor Antagonism Attenuates Cardiac Hypertrophy and Failure in Low-Aldosterone Hypertensive Rats, 656
Glucose
Does Obesity Induce Resistance to the Long-Term Cardiovascular and Metabolic Actions of Melanocortin 3/4 Receptor Activation?, 259

Growth substances
Association of the Ghrelin Receptor Gene Region With Left Ventricular Hypertrophy in the General Population: Results of the MONICA/KORA Augsburg Echocardiographic Substudy, 920

Heart failure
Angiotensin Type-1 Receptor A1166C Gene Polymorphism Correlates With Oxidative Stress Levels in Human Heart Failure, 1155
Cardioprotective Mechanisms of Eplerenone on Cardiac Performance and Remodeling in Failing Rat Hearts, 671
Development of Heart Failure in Chronic Hypertensive Dahl Rats: Focus on Heart Failure With Preserved Ejection Fraction, 901
Electrocardiographic QRS Duration and the Risk of Congestive Heart Failure: The Framingham Heart Study, 861
A Genetic Locus Accentuates the Effect of Volume Overload on Adverse Left Ventricular Remodeling in Male and Female Rats, 128
Heart Failure and Left Ventricular Remodeling After Reperfused Acute Myocardial Infarction in Patients With Hypertension, 706
Impairment of In Vitro and In Vivo Heart Function in Angiotensin-(1–7) Receptor Mas Knockout Mice, 996
Injection of Nerve Growth Factor Into Stellate Ganglia Improves Norepinephrine Reuptake Into Failing Hearts, 209
Mineralocorticoid Receptor Antagonism Attenuates Cardiac Hypertrophy and Failure in Low-Aldosterone Hypertensive Rats, 656
Targeted Deletion of Matrix Metalloproteinase 2 Ameliorates Myocardial Remodeling in Mice With Chronic Pressure Overload, 711
Vascular Endothelial Growth Factor Blockade Promotes the Transition From Compensatory Cardiac Hypertrophy to Failure in Response to Pressure Overload, 887

Heart rate
Does Obesity Induce Resistance to the Long-Term Cardiovascular and Metabolic Actions of Melanocortin 3/4 Receptor Activation?, 259
Reactivity of Ambulatory Blood Pressure to Physical Activity Varies With Time of Day, 778
Sympathetic Neural Outflow and Chemoreflex Sensitivity Are Related to Spontaneous Breathing Rate in Normal Men, 51
Vasorelaxation in Space, 69

Hemodynamics
Emergence of Novel Genetic Effects on Blood Pressure and Hemodynamics in Adolescence: The Georgia Cardiovascular Twin Study, 948
Value of Noninvasive Hemodynamics to Achieve Blood Pressure Control in Hypertensive Subjects, 771

Hemoglobin
Association of Hemoglobin Delivery With Left Ventricular Structure and Function in Hypertensive Patients: Losartan Intervention For End Point Reduction in Hypertension Study, 868

Hindlimb
Sensory Neurons With Afferents From Hind Limbs: Enhanced Sensitivity in Secondary Hypertension, 527

Hormones
Surgical Menopause Increases Salt Sensitivity of Blood Pressure, 1168

Human
Effect of Salt on Isoprostanes in Salt-Sensitive Essential Hypertension, 434

Hypercholesterolemia
Effect of Low-Density Lipoprotein Cholesterol on Angiotensin II Sensitivity: A Randomized Trial With Fluvastatin, 1125

Hypertension

Validation of a Generalized Transfer Function to Noninvasively Estimate Central Hemodynamic Pressure Due to Exercise, 1203
Value of Noninvasive Hemodynamics to Achieve Blood Pressure Control in Hypertensive Subjects, 771
Hypertension, essential
Association Study With 33 Single-Nucleotide Polymorphisms in 11 Candidate Genes for Hypertension in Chinese, 1147
Comparative Antihypertensive Effects of Hydrochlorothiazide and Chlorthalidione on Ambulatory and Office Blood Pressure, 352
Dopamine Receptor Directly Interacts With D1 Dopamine Receptor in Immortalized Renal Proximal Tubule Cells, 573
Effect of Salt on Isoprostanes in Salt-Sensitive Essential Hypertension, 434
Long-Term Intake of North American Ginseng Has No Effect on 24-Hour Blood Pressure and Renal Function, 791
Short Sleep Duration as a Risk Factor for Hypertension: Analyses of the First National Health and Nutrition Examination Survey, 833
Value of Noninvasive Hemodynamics to Achieve Blood Pressure Control in Hypertensive Subjects, 771
Hypertension, experimental
Folate Supplementation During Pregnancy Improves Offspring Cardiovascular Dysfunction Induced by Protein Restriction, 982
Peroxisome Proliferator-Activated Receptor γ Regulates Angiotensin II-Stimulated Phosphatidlyinositol 3-Kinase and Mitogen-Activated Protein Kinase in Blood Vessels In Vivo, 102
Targeted Deletion of Matrix Metalloproteinase 2 Ameliorates Myocardial Remodeling in Mice With Chronic Pressure Overload, 711
Hypertension, genetic
Chromosome 2p Shows Significant Linkage to Antihypertensive Response in the British Genetics of Hypertension Study, 603
Do Allelic Variants in α2α and α5α Adrenergic Receptors Predispose to Hypertension in Blacks?, 1140
Epithelial Sodium Channel Allele T594M Is Not Associated With Blood Pressure or Blood Pressure Response to Amlodipine, 428
Hyperhomocysteinemia Associated With Decreased Renal Transsulfuration Activity in Dahl S Rats, 1094
Polymorphisms and Haplotypes of the Regulator of G Protein Signaling-2 Gene in Normotensives and Hypertensives, 415
Hypertension, malignant
Long-Term Administration of Rho-Kinase Inhibitor Ameliorates Renal Damage in Malignant Hypertensive Rats, 1075
Hypertension, obesity
Adiponectin Replenishment Ameliorates Obesity-Related Hypertension, 1108
Telmisartan But Not Valsartan Increases Caloric Expenditure and Protects Against Weight Gain and Hepatic Steatosis, 1003
Hypertension, pregnancy
Enhanced Endothelin Synthesis by Endothelial Cells Exposed to Sera From Pregnant Rats With Decreased Uterine Perfusion, 615
Phagocytosis of Necrotic but Not Apoptotic Trophoblasts Induces Endothelial Cell Activation, 116
Preeclampsia in Lean Normotensive Normotolerant Pregnant Women Can Be Predicted by Simple Insulin Sensitivity Indexes, 449
Pregnancy Prevents Hypertensive Remodeling of Cerebral Arteries: A Potential Role in the Development of Eclampsia, 619
Hypertension, renal
Enhanced Superoxide Activity Modulates Renal Function in NO-Deficient Hypertensive Rats, 568
NADPH Oxidase in the Renal Medulla Causes oxidative Stress and Contributes to Salt-Sensitive Hypertension in Dahl S Rats, 690
Rho Kinase Polymorphism Influences Blood Pressure and Systemic Vascular Resistance in Human Twins: Role of Heredity, 937
Sensory Neurons With Afferents From Hind Limbs: Enhanced Sensitivity in Secondary Hypertension, 527
Hypertension, secondary
Sensory Neurons With Afferents From Hind Limbs: Enhanced Sensitivity in Secondary Hypertension, 527
Hypertension, sodium-dependent
Angiotensin II Type 2 Receptor Agonist Directly Inhibits Proximal Tubule Sodium Pump Activity in Obese But Not in Lean Zucker Rats, 1117
Chromosome 2p Shows Significant Linkage to Antihypertensive Response in the British Genetics of Hypertension Study, 603
Deoxycorticosterone Acetate-Salt Rats: Hypertension and Sympathetic Nervous System Activity Driven by Increased NaCl Levels, 680
Effect of Salt on Isoprostanes in Salt-Sensitive Essential Hypertension, 434
Extrarenal Na+ Balance, Volume, and Blood Pressure Homeostasis in Intact and Ovariectomized Deoxycorticosterone-Acetate Salt Rats, 1101
Mineralocorticoid Receptor Antagonism Attenuates Cardiac Hypertrophy and Failure in Low-Aldosterone Hypertensive Rats, 656
A Novel Mechanism Contributing to Development of Dahl Salt- Sensitive Hypertension: Role of the Transient Receptor Potential Vanilloid Type 1, 609
Hypertension, white-coat
Cost-Effectiveness of Ambulatory Blood Pressure: A Reanalysis, 29
Long-Term Risk of Mortality Associated With Selective and Combined Elevation in Office, Home, and Ambulatory Blood Pressure, 846
Hypertrophy
Activation of AMP-Activated Protein Kinase Enhances Angiotensin II-Induced Proliferation in Cardiac Fibroblasts, 265
Amino-Terminal Pro-B-Type Natriuretic Peptide and B-Type Natriuretic Peptide: Biomarkers for Mortality in a Large Community-Based Cohort Free of Heart Failure, 874
Association of the Ghrelin Receptor Gene Region With Left Ventricular Hypertrophy in the General Population: Results of the MONICA/KORA Augsburg Echocardiographic Substudy, 920
α-V Integrins Are Necessary for Eutrophic Inward Remodeling of Small Arteries in Hypertension, 281
Deletion of Angiotensin-Converting Enzyme 2 Accelerates Pressure Overload-Induced Cardiac Dysfunction by Increasing Local Angiotensin II, 718
Development of Heart Failure in Chronic Hypertensive Dahl Rats: Focus on Heart Failure With Preserved Ejection Fraction, 901
Different Impact of the Metabolic Syndrome on Left Ventricular Structure and Function in Hypertensive Men and Women, 881
A Genetic Locus accentuates the Effect of Volume Overload on Adverse Left Ventricular Remodeling in Male and Female Rats, 128
Heart Failure and Left Ventricular Remodeling After Reperfused Acute Myocardial Infarction in Patients With Hypertension, 706
Imatinib Attenuates End-Organ Damage in Hypertensive Homozygous TGR(mRen2)27 Rats, 467
Mineralocorticoid Receptor Antagonism Attenuates Cardiac Hypertrophy and Failure in Low-Aldosterone Hypertensive Rats, 656
Out-of-Hemodialysis-Unit Blood Pressure Is a Superior Determinant of Left Ventricular Hypertrophy, 62
Pregnancy Prevents Hypertensive Remodeling of Cerebral Arteries: A Potential Role in the Development of Eclampsia, 619
Targeted Deletion of Matrix Metalloproteinase 2 Ameliorates Myocardial Remodeling in Mice With Chronic Pressure Overload, 711
Uric Acid, Left Ventricular Mass Index, and Risk of Cardiovascular Disease in Essential Hypertension, 195
Vascular Endothelial Growth Factor Blockade Promotes the Transition From Compensatory Cardiac Hypertrophy to Failure in Response to Pressure Overload, 887

I

Imaging
Aortic Pulse Wave Velocity Is Associated With the Presence and Quantity of Coronary Artery Calcium: A Community-Based Study, 174

In Memoriam
John Arthur Luetscher, Jr (1913-2005), 627

Insulin
Preeclampsia in Lean Normotensive Normotolerant Pregnant Women Can Be Predicted by Simple Insulin Sensitivity Indexes, 449

Insulin resistance
Does Obesity Induce Resistance to the Long-Term Cardiovascular and Metabolic Actions of Melanocortin 3/4 Receptor Activation?, 259
Glucagon Receptor-Mediated Extracellular Signal-Regulated Kinase 1/2 Phosphorylation in Rat Mesangial Cells: Role of Protein Kinase A and Phospholipase C, 580
Preeclampsia in Lean Normotensive Normotolerant Pregnant Women Can Be Predicted by Simple Insulin Sensitivity Indexes, 449
Regulation of Peroxisome Proliferator-Activated Receptor γ Activity by Losartan Metabolites, 586
Risk Factors for Arterial Hypertension in Adults With Initial Optimal Blood Pressure: The Strong Heart Study, 162

Integrins
αV Integrins Are Necessary for Eutrophic Inward Remodeling of Small Arteries in Hypertension, 281

Ion channels
Epithelial Sodium Channel Allele T594M Is Not Associated With Blood Pressure or Blood Pressure Response to Amiloride, 428
The Positive Inotropic Effect of Angiotensin II: Role of Endothelin-1 and Reactive Oxygen Species, 727

Ion transport
Sodium Bicarbonate Cotransporter Polymorphisms Are Associated With Baseline and 10-Year Follow-Up Blood Pressures, 532

Ischemia
Cardioprotective Effects of Epelenerone in the Rat Heart: Interaction With Locally Synthesized or Blood-Derived Aldosterone?, 665

K

Kidney
Adult Hypertension and Kidney Disease: The Role of Fetal Programming, 502
Amelioration of Genetic Hypertension by Suppression of Renal G Protein-Coupled Receptor Kinase Type 4 Expression, 1131
Angiotensin II Decreases the Renal MRI Blood Oxygenation Level-Dependent Signal, 1062
Angiotensin II Type 2 Receptor Agonist Directly Inhibits Proximal Tubule Sodium Pump Activity in Obese But Not in Lean Zucker Rats, 1117
Aortic Stiffness, Living Donors, and Renal Transplantation, 216
Calcification and Cardiovascular Health: New Insights Into an Old Phenomenon, 1027
Coexpression of Voltage-Dependent Calcium Channels Ca,1.2, 2.1a, and 2.1b in Vascular Myocytes, 733
D, Dopamine Receptor Directly Interacts With D, Dopamine Receptor in Immortalized Renal Proximal Tubule Cells, 573
Extracellular ATP Stimulates NO Production in Rat Thick Ascending Limb, 563
Glucagon Receptor-Mediated Extracellular Signal-Regulated Kinase 1/2 Phosphorylation in Rat Mesangial Cells: Role of Protein Kinase A and Phospholipase C, 580
A High-Salt Diet Dissociates NO Synthase-3 Expression and NO Production by the Thick Ascending Limb, 95
Podocyte Injury Underlies the Glomerulopathy of Dahl Salt-Hypertensive Rats and Is Reversed by Aldosterone Blocker, 1084
RNA Silencing In Vivo Reveals Role of p22phox in Rat Angiotensin Slow Pressor Response, 238
Sensory Neurons With Afferents From Hind Limbs: Enhanced Sensitivity in Secondary Hypertension, 527

Kinase
Long-Term Administration of Rho-Kinase Inhibitor Ameliorates Renal Damage in Malignant Hypertensive Rats, 1075

Kinins
Postischemic Brain Injury Is Exacerbated in Mice Lacking the Kinin B2 Receptor, 752

Amelioration of Genetic Hypertension by Suppression of Renal G Protein-Coupled Receptor Kinase Type 4 Expression, 1131

Rats, transgenic
Elevated Blood Pressure and Heart Rate in Human Renin Receptor Transgenic Rats, 552

Receptors
β2-Adrenoceptor Genotype and Function Affect Hemodynamic Profile Heterogeneity in Postural Tachycardia Syndrome, 421 Pancreatic Polypeptide-Fold Peptide Receptors and Angiotensin II-Induced Renal Vasocostruction, 545

Receptors, adrenergic alpha
Do Allelic Variants in α1A and α1C Adrenergic Receptors Predispose to Hypertension in Blacks?, 1140

Receptors, angiotensin
Angiotensin Type-1 Receptor A1166C Gene Polymorphism Correlates With Oxidative Stress Levels in Human Heart Failure, 1155 Angiotensin-Converting Enzyme 2 and Angiotensin-1(-7): An Evolving Story in Cardiovascular Regulation, 515 Deletion of Angiotensin-Converting Enzyme 2 Accelerates Pressure Overload-Induced Cardiac Dysfunction by Increasing Local Angiotensin II, 718 Expression of Constitutively Active Angiotensin Receptors in the Rostral Ventrolateral Medulla Increases Blood Pressure, 1054 Impairment Of In Vitro and In Vivo Heart Function in Angiotensin-(1-7) Receptor Mas Knockout Mice, 996 A Place In Our Hearts for the Lowly Angiotensin 1-7 Peptide?, 811 The Positive Inotropic Effect of Angiotensin II: Role of Endothelin-1 and Reactive Oxygen Species, 727

Receptors, angiotensin II
Angiotensin-II Type 1 Receptor-Mediated Hypertension in D2 Dapomine Receptor-Deficient Mice, 288 Renal Angiotensin Type 2 Receptors Mediate Natriuresis Via Angiotensin III in the Angiotensin II Type 1 Receptor-Blocked Rat, 537 Telmisartan But NotValsartan Increases Caloric Expenditure and Protects Against Weight Gain and Hepatic Steatosis, 1003

Receptors, bradykinin
Postischemic Brain Injury Is Exacerbated in Mice Lacking the Kinin B2 Receptor, 752

Receptors, dopamine
Amelioration of Genetic Hypertension by Suppression of Renal G Protein-Coupled Receptor Kinase Type 4 Expression, 1131 D3 Dopamine Receptor Directly Interacts With D2 Dopamine Receptor in Immortalized Renal Proximal Tubule Cells, 573

Receptors, purinergic
Extracellular ATP Stimulates NO Production in Rat Thick Ascending Limb, 563

Remodeling
Angiotensinogen Modulates Renal Vasculature Growth, 1067 Cardiovascular Function in Mice During Normal Pregnancy and in the Absence of Endothelial NO Synthase, 1175 Cytochrome P450 Epoxidegenase Gene Function in Hypoxic Pulmonary Vasocostruction and Pulmonary Vascular Remodeling, 762 Deletion of Angiotensin-Converting Enzyme 2 Accelerates Pressure Overload-Induced Cardiac Dysfunction by Increasing Local Angiotensin II, 718 Different Impact of the Metabolic Syndrome on Left Ventricular Structure and Function in Hypertensive Men and Women, 881 Heart Failure and Left Ventricular Remodeling After Reperfused Acute Myocardial Infarction in Patients With Hypertension, 706 Mineralocorticoid Receptor Activation Causes Cerebral Vessel Remodeling and Exacerbates the Damage Caused by Cerebral Ischemia, 590 Vascular Endothelial Growth Factor Blockade Promotes the Transition From Compensatory Cardiac Hypertrophy to Failure in Response to Pressure Overload, 887

Renal disease
Central Role for the Cardiotonic Steroid Marinobufagenin in the Pathogenesis of Experimental Uremic Cardiomyopathy, 488 Development of Heart Failure in Chronic Hypertensive Dahl Rats: Focus on Heart Failure With Preserved Ejection Fraction, 901 Different Impact of the Metabolic Syndrome on Left Ventricular Structure and Function in Hypertensive Men and Women, 881 Heart Failure and Left Ventricular Remodeling After Reperfused Acute Myocardial Infarction in Patients With Hypertension, 706

Renin
Elevated Blood Pressure and Heart Rate in Human Renin Receptor Transgenic Rats, 552 Endogenous NO Regulates Plasminogen Activator Inhibitor-I During Angiotensin-Converting Enzyme Inhibition, 441 Nonproteolytic Activation of Prorenin Contributes to Development of Cardiac Fibrosis in Genetic Hypertension, 894 Rho Kinase Polymorphism Influences Blood Pressure and Systemic Vascular Resistance in Human Twins: Role of Heredity, 937 Views of the Renin-Angiotensin System: Brilling, Mimsy, and Slithy Tove, 509

Renin-angiotensin system
Adenovirus-Mediated Small-Interference RNA for In Vivo Silencing of Angiotensin AT1 Receptors in Mouse Brain, 230 Chromosome 2p Shows Significant Linkage to Antihypertensive Response in the British Genetics of Hypertension Study, 603 Evidence Supporting a Functional Role for Intracellular Renin in the Brain, 461 New Mass Spectrometric Assay for Angiotensin-Converting Enzyme 2 Activity, 1010 A Place In Our Hearts for the Lowly Angiotensin 1-7 Peptide?, 811 Role of Angiotensin Type-1 and Angiotensin Type-2 Receptors in the Expression of Vascular Integrins in Angiotensin II-Infused Rats, 122 Views of the Renin-Angiotensin System: Brilling, Mimsy, and Slithy Tove, 509

Risk factors
Alcohol and Hypertension: An Update, 1035 Aortic Pulse Wave Velocity Is Associated With the Presence and Quantity of Coronary Artery Calcium: A Community-Based Study, 174 Aortic Stiffness, Living Donors, and Renal Transplantation, 216 Blood Pressure Reactivity to Psychological Stress and Coronary Calciumfication in the Coronary Artery Risk Development in Young Adults Study, 391 Brachial Blood Pressure But Not Carotid Arterial Waveforms Predict Cardiovascular Events in Elderly Female Hypertensives, 785 Complex Relationship Between Blood Pressure and Mortality in Type 2 Diabetic Patients: A Follow-Up of the Botnia Study, 168 Different Impact of the Metabolic Syndrome on Left Ventricular Structure and Function in Hypertensive Men and Women, 881

A Longitudinal Study of Hypertension Risk Factors and Their Relation to Cardiovascular Disease: The Strong Heart Study, 403
Subject Index

Vasopressins
Angiotensin-II Type 1 Receptor-Mediated Hypertension in D1 Dopamine Receptor-Deficient Mice, 288

Veins
Genome-Wide Linkage Study of Retinal Vessel Diameters in the Beaver Dam Eye Study, 797
Pleiotropic Effects of Hydrogen Peroxide in Arteries and Veins From Normotensive and Hypertensive Rats, 482

Ventricular function, left
Association of the Ghrelin Receptor Gene Region With Left Ventricular Hypertrophy in the General Population: Results of the MONICA/KORA Augsburg Echocardiographic Substudy, 920

Vessels
Angiotensinogen Modulates Renal Vasculature Growth, 1067

Moderate Ascorbate Deficiency Increases Myogenic Tone of Arteries From Pregnant but Not Virgin Ascorbate-Dependent Rats, 454

Viscosity
Smart Damping Modulation of Carotid Wall Energetics in Human Hypertension: Effects of Angiotensin-Converting Enzyme Inhibition, 384

Water-electrolyte balance
Extrarenal Na+ Balance, Volume, and Blood Pressure Homeostasis in Intact and Ovariectomized Deoxycorticosterone-Acetate Salt Rats, 1101
