SUPPLEMENT I, March-April 1983, Volume 5, Number 2

BIOCHEMICAL AND NEUROENDOCRINE ASPECTS OF HYPERTENSION

PREFACE:
Biochemical and Neuroendocrine Aspects of Hypertension............................... I-1
ALLEN W. COWLEY, JR.

ORIGINAL ARTICLES:
Structure of the Mouse Submaxillary Gland Renin Precursor and a Model for Renin Processing. Arthur C. Corcoran Memorial Lecture................................. I-3
Pierre Corvol, Jean-Jacques Panthier, Simon Foote, and François Rougeon

Benjamin W. Zweifach

Vasoactive Peptides. State-of-the-Art Review ............................................. I-17
Sami I. Said

Development and Preliminary Application of a New Assay for Aldosterone Stimulating Factor
Subha Sen, F. Merlin Bumpus, Sharon Oberfield, and Maria I. New

Urinary Free and Serum 19-Nor-Deoxycorticosterone in Adrenal Regeneration Hypertension
Celso E. Gomez-Sanchez, Elise P. Gomez-Sanchez, Robert J. Upcavage, and Edwin B. Hall

The Possible Biological Role of Aldosterone Metabolites................................ I-35
David J. Morris, Christopher J. Kenyon, Syed A. Latif, Martin McDermott, and Theodore L. Goodfriend

Interaction of Mineralocorticoids and Pressor Agents in Vascular Smooth Muscle........ I-41
Michael A. Weber, Ralph E. Purdy, and Jan I. M. Drayer

Mechanism of Increased Renin Release in the Adrenalectomized Rat. Adrenal Insufficiency and Renin ................................................................. I-47
William J. Welch, Cobern E. Ott, Gordon P. Guthrie, Jr., and Theodore A. Kotchen

Hemodynamic Mechanism of Blood Pressure Response to Captopril in Human Malignant Hypertension ................................................................. I-53
Manoel A. Saragoça, Eduardo Homsi, Artur B. Ribeiro, Sebastião R. Ferreira Filho, and Oswaldo L. Ramos

Calcium Balance and Parathyroid Hormone Mediated Vasodilation in the Spontaneously Hypertensive Rat ............................................................. I-59
Sharon Anderson, James R. Grady, David H. Ellison, and David A. McCarron

Response of Venous Membrane Potentials to Calcium Blockade in Spontaneous Hypertension
William J. Stekiel, Stephen J. Contney, Julian H. Lombard, and David R. Harder

Hemodynamic and Reflex Responses to Acute and Chronic Antihypertensive Therapy with the Calcium Entry Blocker Nifedipine ..................................... I-70
Wolfgang Kiowski, Osmund Bertel, Paul Erne, Peter Bolli, U. Lennart Hulthén, Rudolf Ritz, and Fritz R. Bühler

Atrial Natriuretic Factor. Characterization and Partial Purification ..................... I-75
Gaetan Thibault, Raul Garcia, Marc Cantin, and Jacques Genest

Partially Purified Human and Rat Atrial Natriuretic Factor ............................. I-81
Nick C. Trippodo, Allan A. MacPhee, and Francis E. Cole

Continued on next page
Effect of Anteroventral Third Ventricle Lesions on Vascular Sodium-Pump Activity in Two-Kidney Goldblatt Hypertension ............................................................... I-89
Emel Songu-Mize, Steve L. Bealer, and R. William Caldwell

Sodium-Potassium Pump Activity in Reduced Renal-Mass Hypertension .................. I-94
Stephen J. Huot, Motilal B. Pammann, David L. Clough, James Buggy, Howard J. Bryant,
David R. Harder, and Francis J. Haddy

Blood Kinas after Sympathetic Nerve Stimulation of the Rat Submandibular Gland .... I-101
A. Guillermo Scici, Torill B. Ørstavik, Sara F. Rabito, Robert D. Murray, and
Oscar A. Carretero

Endothelial Mechanism in the Vascular Action of Hydralazine .................................. I-107
Eric G. Spokas, Giancarlo Folco, John Quilley, Praveen Chandler, and John C. McGiff

Cardiovascular Effects of Antihypertensive Polar and Neutral Renomedullary Lipids.... I-112
E. Eric Muijread, Bjorn Folkow, Laurence W. Byers, Dominic M. Desiderio, Jr., Peter
Thorén, Gunnar Göthberg, Alan W. Dow, and Bennie Brooks

Development of a New Strain of Spontaneously Hypertensive Rats Homozygous for
Hypothalamic Diabetes Insipidus .............................................................................. I-119
Ursula Ganten, Wolfgang Rascher, Rudolf E. Lang, Rainer Dietz, Rainer Rettig,
Thomas Unger, Roland Taugner, and Detlev Ganten

Plasma and Platelet Vasopressin in Essential Hypertension and Congestive Heart Failure ... I-129
Jacek J. Preibisz, Jean E. Sealey, John H. Laragh, Robert J. Cody, and Babette B. Weksler

Alterations in Plasma and Cerebrospinal Fluid Norepinephrine and Angiotensin II During the
Development of Renal Hypertension in Conscious Dogs .......................................... I-139
Hiromichi Suzuki, Carlos M. Ferrario, Robert C. Speth, K. Bridget Brosnihan, Robert R.
Smeby, and Preenie de Silva

Hemodynamic and Afferent Renal Nerve Responses to Intrarenal Adenosine in the Dog .... I-149

Neural Contribution to Renal Hypertension Following Acute Renal Artery Stenosis in
Conscious Rats ....................................................................................................... I-155
James E. Faber, and Michael J. Brody

Increased Vascular Sensitivity to Angiotensin II in Psychosocial Hypertensive Mice .... I-165
R. Clinton Webb, Joyce C. Johnson, Arthur J. Vander, and James P. Henry

Relationship of Alpha Receptor Types to Hypotension and Renal Vasodilation Caused by
Alpha Blockers in Conscious Dogs ...................................................................... I-170
Ben G. Zimmerman, and R. David Largent

Beta Adrenergic Receptor Response Coupling in Hypertrophied Hearts ..................... I-175
Kazuo Kumano, Mary E. Upsher, and Philip A. Khairallah

Reflex-Hemodynamic Adjustments and Baroreflex Sensitivity During Converting Enzyme
Inhibition with MK-421 in Normal Humans ............................................................ I-184
Hans Ibsen, Brent Egan, Karl Osterziel, Arthur Vander, and Stevo Julius

Beta-Receptors and Contractile Reserve in Left Ventricular Hypertrophy ..................... I-192
M. Hani Ayobe, and Robert C. Tarazi

A Paradigm for Identification of Primary Genetic Causes of Hypertension in Rats ........ I-198
John P. Rapp

CIBA AWARD FOR HYPERTENSION RESEARCH ..................................................... I-204
